

# WHY DOES MY KITTEN NEED A WHOLE HEALTH PLAN?

Preventive care is essential to helping your kitten live a long, healthy, and happy life. When most people think of preventive care for their cat, they think of vaccines. While vaccinations are very important, there are actually four cornerstones of preventive care which are equally essential. Our Whole Health Plans incorporate all four of these cornerstones:

## EXAMS

At BPC, an exam is not just a complete physical examination and health assessment, but an opportunity for your veterinarian to know and appreciate your kitten as an individual. No two cats have the exact same lifestyle. Our veterinarians take the time to understand your pet and use this knowledge as the basis for medical recommendations.

## LAB TESTS

Diagnostics like blood and urine tests help to determine if all body systems are functioning as they should. They also screen for genetic and breed-specific health issues and check for chronic conditions like kidney and thyroid disease. Early detection and treatment of chronic disease is critical to helping your kitten live a long, healthy life with your family. Early management of chronic or age-related conditions is less costly and risky than emergency treatment once the disease progresses.

## PARASITES

Internal parasites can make your kitten seriously ill, but fortunately they are also easy to prevent. Preventive routine deworming against parasites such as roundworm, which can infect humans and cause serious illness, is important to the health of your entire family.

## VACCINES

Vaccinations are an easy way to protect your kitten from life-threatening feline illnesses like distemper, while vaccines like rabies protect your whole family because rabies is fatal to both people and pets in your household.

Today's Visit	Kitten Plan
Comprehensive Physical Exam including: <ul style="list-style-type: none"> <li>• Ear Exam</li> <li>• Eye Exam</li> <li>• Dental Exam</li> <li>• Neurologic Evaluation</li> <li>• Cardiovascular Evaluation</li> <li>• Weight &amp; Nutritional Counseling</li> <li>• Coat &amp; Skin Evaluation</li> </ul>	✓
